(Newsbriefs continued)

Volunteer instructors are being recruited for the UCSF Employee Pilot CPR Training Project to be held in June. If you are a CPR certified Red Cross or Heart Association instructor and would like to participate, contact the Development and Training Office, x4032.

The SFGH Memorabilia Committee has installed a plaque in the newly remodeled medical library, listing charter donors. As part of its effort to preserve architectural ornaments from the old hospital, the committee also has installed the carved oak and marble fireplace from the former Dean's Office and the copper chandelier from the old main lobby in the Gordon Hein-Norman Sweet Reading Room of the library.

A bronze plaque honoring the Charitable Foundation of the Native Sons of the Golden West was presented by the School of Dentistry on April 26. The Foundation has contributed nearly $500,000 to UCSF's Center for Craniofacial Anomalies over the past 27 years.

The plaque, presented to Colin B. Campbell, grand president of the Native Sons, by Dean Ben W. Pavone, Egil P. Harvold, former director of the Center for Craniofacial Anomalies, and George Chierici, acting director, will be permanently displayed in the main lobby of the new School of Dentistry building.

During the ceremonies, Campbell presented the Native Sons' latest gift to the Center in the amount of $15,000. Senator Milton Marks was the guest speaker.

The Child Care/Study Center has a limited number of positions open to three- and four-year old children. Interested parents are invited to visit the Center at 610 Parnassus or call x1616.

The Center recently dedicated a tree and plaque in the memory of Edyth E. Goldfield, assistant clinical professor of Medicine, who died November, 1979.

"Cardiac Rehabilitation: Nursing's Role in Concepts of Exercise Therapy and Education Programs" is a Continuing Education Course in Nursing to be held Thursday and Friday, May 22 and 23 at St. Mary's Cathedral, 1111 Gough St., S.F.

The course will focus on the clinical evaluation, medical management, and therapeutic rehabilitation of the patient with coronary artery disease. For further information call x1817.

The 1980 Faculty Research Lecturer is M. Margaret Clark, professor of Anthropology, Epidemiology and International Health. She will present the talk, "Beyond Diagnosis: The Influence of Culture on Health" on Thursday, May 29, in Cole Hall at 4 p.m.

Renowned for her medical research in medical anthropology and gerontology, Clark is the first social scientist to be named Faculty Lecturer in its 23 year history. The lecture is the foremost recognition by the faculty of scientific achievement at UCSF.

Clark's research and related teaching activities have been the chief impetus for the development of two UCSF training programs: the Program in Medical Anthropology and the Multidisciplinary Training Program in Applied Gerontology.

The First Leslie L. Bennett Lecturer is Grant M. Liddle, professor and chairman of the Department of Medicine at Vanderbilt University. Liddle will speak on "Diagnostic, Therapeutic and Heuristic Uses of Adrenal Inhibitors" on Friday, May 23 in Cole Hall at 11 a.m.

Internationally known for his research in endocrinology, Liddle received his MD from UCSF in 1948. He has been a member of the Vanderbilt faculty since 1967 and has won numerous awards, including the Earl Sutherland Prize for Achievement in Research and the Harvie Branscomb Distinguished Professorship, both from Vanderbilt. He was UCSF's Second Distinguished A-FA Visiting Professor in 1978.

The lectureship honors Bennett, Academic Vice-Chancellor and professor emeritus of Physiology, who was awarded the UCSF Medal in 1978. An alumnus of Berkeley, he completed his internship and residency at UCSF and in 1937 became the fifth individual to receive a PhD in Anatomy from UC. Bennett served first as chairman of the Department of Physiology and then as Academic Vice Chancellor. In 1973 he was awarded the Silver Medallion for service from the California Heart Association.

NEWS BRIEFS

The First Annual Verne T. Inman Lectureship and the 15th Annual Scientific Program of the LeRoy C. Abbott Orthopaedic Society will be held Tuesday through Friday, June 3 to 6.

The Inman lecturer is Ian Macnab, professor of Surgery, University of Toronto, and chief of the Division of Orthopaedic Surgery, the Wellesley Hospital at Toronto, who will speak on "The Painful Shoulder," Thursday, June 5 at 11:30 a.m. in Cole Hall.

Edward H. Miller, director of the Division of Orthopaedic Surgery, University of Cincinnati Medical Center, will present the Abbott Lecture on Friday, June 6 at 11:15 a.m. in Cole Hall. He will speak on "The Professional Dancer and the Orthopaedist." For registration information on both lectures call x1166.

The Inman lectureship honors the professor emeritus, Orthopaedic Surgery and former chairman of the Department. Imman, who died in February of this year, was internationally known for his research on human locomotion and the development of prosthetic devices for the amputee. He established the UCSF Biomechanics Laboratory in 1957, the first lab of its kind anywhere devoted to this discipline, and served as its director for the next 16 years. The lectureship was originally called the Samuel Higby Camp Lectureship in memory of Camp, a manufacturer of orthopaedic appliances.

The LeRoy C. Abbott Orthopaedic Society was founded in 1965 in honor of Abbott, chairman of the Department of Orthopaedic Surgery from 1939-1957.

Six School of Pharmacy graduate students have been named 1980-81 Fellows of the American Foundation for Pharmaceutical Education. They are Thomas F. Woolf, Philip C. Smith, Patrick Noonan, Mark Reynolds, Joe Wayne Keepers, and Jeffrey M. Blaney. In addition, Woolf has been awarded the H.A.B. Dunning Memorial Fellowship, and Smith was selected as the first recipient of the new Merck-AFPE Pharmaceutics Fellowship.

The Alumni-Faculty Association School of Medicine Homecoming will be held on Saturday, May 31 in Cole Hall. The Fourth Distinguished A-FA Visiting Professor will be Albert J. Solnit, Sterling Professor of Pediatrics and Psychiatry and director, Yale University Child Study Center.

The scientific program, "Medicine for the 1980's," will have as other speakers William J. Rutter, chairman Biochemistry/Biophysics; Henry I. Goldberg, professor, Radiology; C.H. Li, director, Hormone Research Laboratory; Kanu Chatterjee, professor, Medicine and associate chief, Cardiovascular Division; and Jacquelin Perry, clinical professor, Orthopaedic Surgery. Paul Ebert, chairman and professor, Surgery will present surgical grand rounds at 8:30 a.m.

The Charlotte Baer Memorial Clinical Faculty Award will be presented to Roberta F. Fenlon, clinical professor of Medicine, that evening at the Homecoming Banquet.

The award honors the late Dr. Baer, a 1941 UCSF School of Medicine graduate, and is given to a member of the clinical faculty for outstanding service to the School. Fenlon, who has been with UCSF since 1945, is the first woman president of both the S.F. Medical Society and the California Medical Association, and is the recipient of the 1972 Distinguished Internist of the Year Award from the Society of Internal Medicine. For further information on Homecoming call x1471.

The VA Medical Center, S.F. is having an Open House for the general public to celebrate the Veterans Administration's 50th Anniversary, on Thursday, May 22, from 10 a.m. to 3 p.m., at 4150 Clement St.

Included in the activities will be exhibits, displays, slides, and movies, sponsored by the Surgical, Pharmacy, Dental and Medical Media Services. A tour will also be conducted in selected areas including the Patient Education Resource Center.

The VA Medical Center, S.F. was opened in 1934 on the site of Fort Miley, an old Army post established in 1897.

The Chancellor's Graduate Research Fellowships have been awarded to Robert Lee Allen (Sociology), Joseph Carl Hager (Psychology), Kent LuVern Kunze (Pharmaceutical Chemistry), Jeannette Esther Natzle (Biochemistry), and Scheffer Chui-Goong Tseng (Experimental Pathology). The winners of last year's fellowship awards will present papers at a research forum sponsored by the Graduate Council and the Graduate Students Association at a later date.

Five awards in the amount of $6,000 each, plus fees for one year, are given annually to graduate students, in the last phase of a doctoral program, who demonstrate outstanding promise in research and superior scholarship. Only one student is recommended by each department or program.

Also, Bruce Mico, a recipient of last year's Research Fellowship, has been appointed a Pharmacology Research Associate Fellow with NIH, starting in 1981.

One hundred fifty-three students will receive MD degrees at the School of Medicine Commencement Exercises, Saturday, May 24 at 2 p.m. at Zellerbach Auditorium, UC-Berkeley. Doctors and master's degrees also will be awarded.

Faith Fitzgerald, director of medical student teaching programs at the University of Michigan and former UCSF faculty member, will be keynote speaker.

The program also will include presentation of the prestigious gold-headed cane, a traditional honor originating in the 17th century London medical society, which is given to the graduate who best exemplifies the qualities of the ideal physician. The Kaiser Awards for Excellence in Teaching, established by the Henry J. Kaiser Foundation, will be presented to outstanding faculty members.

A one-year renewal grant for more than $2 million has been given to the S.F. Medical Center Outpatient Improvement Program, Inc., from the Department of Health, Education and Welfare.

The grant provides support for the SFGH satellite clinics, the South of Market, Potrero Hill and Southeast Health Centers, and covers certain staff salaries in the Hospital-based clinics. The adolescent, nutrition education, information, and patient advocate services also will receive continued support through these funds.

A Founders' Day Celebration for the Coleman-Epstein Laboratories will be held on Monday, June 2.

The ceremonies, honoring those who have helped fund the laboratories, will start at 10 a.m. in 303 HSW, with welcoming remarks by Chancellor Francis A. Sooy, Dean Julius R. Krevans of the School of Medicine, and Roger Boles, chairman of the Department of Otolaryngology. A tour of the laboratories will be followed by an invitational luncheon and reception at University House.

Saul and Ida Epstein, the prominent Los Angeles couple who made one laboratory possible by donating $250,000 in July, 1978, are among the invited guests.

The Coleman-Epstein Laboratories focus on basic otoneurological research problems that affect such disorders as facial tics, inner ear imbalance, and loss of voice and hearing, including the development of the "cochlear implant," an electronic hearing device for the profoundly deaf.

Bear-ly New, the Hospitals/Clinics Auxiliary thrift shop, is moving to an expanded location at 1909 Fillmore St., starting May 19. The new phone number is 921-2789. The 2512 Clement Street location will remain open until May 16, and can be reached by calling 752-8773. Store hours are 10 a.m. to 4 p.m.

The new shop, which carries slightly worn clothes, many of them designer fashions, has several new features including a boutique, garden and a green parking zone to facilitate easy drop-off donations.

The Auxiliary's Annual Meeting will be on Wednesday, May 14 at University House. A wine and music reception will precede the meeting. Charles Wilson, professor and chairman of the Department of Neurosurgery, will speak on "Microneurosurgery in 1980." Music will be provided by the J. Eugene McAteer High School Chamber Group. Guest of honor will be Matilda Hogan, manager of the Gift Shop.

The Auxiliary will present its third installment of $25,000 toward its pledge of $100,000 for the building of a pediatric special care unit, part of the Moffitt Modernization program.

Volunteers are needed to help take blood pressure at a Hypertension Screening Program, Thursday, May 29. The program, coordinated by the Office of Public Service Programs, is in recognition of National High Blood Pressure Month. Faculty, staff and students who would like to volunteer should contact Vida Labrie at x3206.

A baby reunion for the Intensive Care Nursery "alumni" will be held on Saturday, May 17. More than 300 children, all born with problems that necessitated life-saving measures in the ICN in Moffitt, are expected to attend.

One hundred physicians and ICN staff who have cared for them will be present at the reunion, which will feature a clown, juggler, puppeteer, face painting by the ICN staff, and gospel singing.

Approximately 5,000 babies have been ICN patients at UCSF during the 10 years of the unit's existence.

Mildred Fitzharris, Hospital Risk Coordinator, has retired as of April 30. A key member of the Hospital Administration staff for fourteen years, Ms. Fitzharris provided a variety of essential administrative services to patients and staff alike. Ms. DeLayne Harthorn has assumed the duties of Acting Hospital Risk Coordinator.
